solutions

About Highdram

Highdram is part of KW.TW Machinery GmbH, who provides precision weighing, packing and labeling equipment to assist our customers, create value, and contribute to the development of industry and healthier lives.

We focus our attention on our customers' needs, offering tailor-made, market-oriented and economical solutions. We value the relationships with our partners by providing extensive worldwide service and support, including maintenance, spare parts, consulting and training. We assure the best quality and competitive pricing on retail scale supplies.

Our customer base includes global-operating companies in the retail industry, fruits and vegetables, meat, snacks and other fields.

We appreciate the opportunity to be a part of your precision-weighing vision and are committed to exceeding your expectations!

WrapDude KW-6F Series

Integrate
“ Weighing
Wrapping
Labeling ”

WrapDude KW-6F Series

Widely used in vegetable factories, mushroom farms, meat processing plants and supermarket backroom areas.

A weighing, wrapping & labeling machine that packs fresh food easily, quickly and efficiently, extending food freshness and shelf life. By simplifying operation, it reduces your workload and increases efficiency.

WrapDude KW-6F Series

Efficient, safe, stable and integrated: the WrapDude weighing, wrapping & labeling machine improves product packaging efficiency and helps fresh-food companies reduce labor costs and management costs. Besides, it protects fresh-food products, ensuring maximum safety and hygiene. The compact and movable design saves space while increasing flexibility.

–Compact design and small footprint for better usability and efficiency

–Semi-automatic weighing, packaging and labeling, greatly reducing tedious manual work

–C/S architecture supports internet data transmission and backup, useful for data storage and statistics

–Embedded Linux operating system for smooth and stable operation

–Full touchscreen shows items as images in a straightforward and easy manner, so it can be applied by a wider range of people

–User-friendly resistive touchscreen, able to deal with complex environments

Easy operation

- 12.1" large touchscreen
- Labels can be preset more intuitively in screen preview
- Low noise, reducing interference

Faster processes

- Semi-automatic weighing, packaging and labeling, greatly reducing tedious manual work
- Film is easy to handle and replace

Flexible packaging

- Available for trays of different sizes
- Automatic film-stretching function for tight and aesthetic wrapping
- The installation position of the plastic wrap can be adjusted freely, suitable for a wide range of plastic wrap sizes
- Support without tray wrapping
- Applicable to a variety of membrane materials, such as PE, PVC or PO

Useful Stand (optional)

- Thanks to its tripod and wheels, it can be easily moved
- With storage function for spare plastic wraps, accessories, etc.

Model WrapDude KW-6F-S15B

Weighing

Weighing range	3kg
Scale interval	1g
Min. load	20g

Operation display	12.1" resistive TFT touchscreen
Dimensions (WxDxH)	810 x 900 x 1425mm
Net weight	225kg

Package size

Width	80~280mm
Height	90~200mm
Depth	10~150mm
Film width	350~450mm

Wrapping

Wrapping speed	Max. 15 packages/min
----------------	----------------------

Thermal printer

Label type	Liner labels
Printing speed	up to 30 mm/sec.
Supported paper roll diameter	50-200mm
Supported paper roll width	45-85mm
Print width	81mm
Print resolution	960 dots/line
Service life	50km

Power consumption	100-240V / 50/60Hz
Humidity (RH)	35-85%
Net weight	225kg
Interfaces	LAN/USB
Optional	Stand

Weighing and labeling machine AC-7E

Highlights

- 12" industrial color touchscreen display, clear interface, easy to operate
- Windows operating system, strong compatibility and stability
- High weighing accuracy, up to $\pm 0.5-1g$
- Labeling speed up to 45 packs/min

For precision weighing, correct measurement and high-accuracy labeling.

Helps you maximize efficiency of prepackaging and make processes more intelligent!

Highlights

- Thermal direct printing
- Blowing labeling mode
- Visual label-editing template with easy label editing
- Removable conveyor belts, which comply with food-industry hygiene standards and are easier to clean and maintain
- USB interface for software backup, software upgrade and export of records

The AC-7E is designed for fully automatic weighing and labeling of pre-packaged items. Thanks to its compact, space-saving body design and modular construction it is easier to configure, in order to meet the product and capacity requirements of retail, trade and industry.

Weighing and labeling machine AC-7E

Weighing Range	1Kg
Printer	Printing resolution: 350dpi
	Printing width: 104mm
	Printing speed: max. 300mm/s
Printing mode	Thermal direct
Printing size	Inner diameter: 38/76mm
	Outer diameter: max. 250mm
Labeling mode	Push arming + blowing mode
Display	12" color touch screen
Weighing belt dimensions	350x220mm
Label size	W30x30-100x100mm
Label speed	45 packages/min
Barcode versions	EAN13, CODE128, CODE39, ITF, QR-CODE
Mains voltage	220V / 50-60Hz
Operating temperature	-10°C ~ 40°C
Humidity	35-85% (non-condensation)
Conveyor size (LxWxH)	1630 x 220 x 780mm
Belt width	220mm
